Whatever you decide, Enjoy Your Wedding Day,
because it goes by very quickly . . .

But the benefits of your Pre- Wedding Makeover may last for many
years, or even a lifetime.

Wedding pictures can last for decades. Pictures from your wedding day are prominently displayed in living rooms, offices and dorms and mailed all over the world. These pictures are handed down to children and other relatives to be viewed by generation after generation. So, who among us would not like to look our best in those pictures? With this in mind, a growing number of New Zealand wedding parties are opting for cosmetic surgery procedures to look their best for the big event and its' lifetime of memories, photographs, and videos. The trend that started with The Bride & Mother of The Bride, now includes the entire wedding party - Bridesmaids, Mother of The Groom, Groom & Fathers.

Restored Beauty Getaways New Zealand Director, Jo Hueston, says that their "wedding clients" are often people who have been concerned about their appearance for some time.
